# TEXTILE AUXILIARIES

# THE TEXTILE AUXILIARIES

are specially used for washing and dyeing of yarns and fabrics. These auxiliaries are formulated for textile products in the forms of cationic, non-ionic, surfactants and amphoteric. ... These auxiliaries find usage in textile industries for dyeing, finishing, printing and sizing fabric applications

## ► Pretreatment Auxiliaries

### **Pretreatment Auxiliaries:**

It is the process known as the "Heart of Processing". In this process all impurities are removed and substrate is brought to a stage where it is more absorbent and white and can be easily processed further.

## ► Dyeing Auxiliaries

### **Dyeing Auxiliaries:**

It is the process by which transfer of dyes from aqueous solution to the substrate by means of adsorption and diffusion.

## ► Finishing Auxiliaries

### **Finishing Auxiliaries:**

This is the final process given to the substrate to give good "hand feel" and some desired functional properties

## ► Printing Auxiliaries

### **Printing Auxiliaries:**

It is the process of applying color to the substrate in definite patterns or designs.

Printing Auxiliaries	Product Name	Function
Binder	Texoprint Binder ESVS	Economical binder for pigment printing
	Texoprint Binder 4000	Concentrated binder for pigment printing
	Texoprint Binder 9400	Versatile binder for pigment printing
	Texoprint Gold Binder	Gold binder for printing
	Texoprint Binder SLN	Binder for pigment printing
	Texoprint Khadi Binder RBX	Stretchable khadi for printing
	Indocoat A 71i	Binder for pigment coating
Fixer	Texoprint Fixer CCL	Concentrated fixer for pigment printing
	Texoprint Fixer CCP	Economical fixer for pigment printing
	Texoprint Fixer PP	Low formaldehyde fixer for pigment printing
	Indocoat Fixer NF	Non formaldehyde fixer for pigment printing and coating
	Indocoat Fixer CCP	Fixer for pigment coating
Thickener	Indocoat Thickener PP	Synthetic thickener for pigment coating
	Texoprint Thickener PP	Synthetic thickener for pigment printing
	Texoprint Thickener DP	Synthetic thickener for disperse printing
	Texoprint Thickener RPT	Semi synthetic/hybrid thickener for reactive printing
	Texoprint Thickener SAL	Sodium alginate thickener for reactive printing
	Texoprint Thickener RP ECO	Semi synthetic/hybrid thickener for reactive printing
	Texoprint CTWP	Tamarind base thickener for disperse printing
Cationiser	Texoprint Cationiser P	Cationizer for pigment printing

A Khatau Enterprise

The origins of the Khatau group date back to the late 1800's when a pioneer, Shri Khatau Makanji set up Khatau Makanji Spinning and Weaving Mills. Indokem Ltd, a member of the Khatau group was established in 1946. It was one of the first companies in India to recognize a growing textile industry and has since been a leader in the market of textile dyes and chemicals in India.

The company's vision is thrust on consistent quality from conceptualization to execution focusing on customer satisfaction with uncompromising integrity.

Indokem is a reputed manufacturer, supplier and exporter of textile dyes and chemicals which are in compliance with rigorously maintained global quality standards catering to the expectation of our widespread clientele.
